No Serious Trouble With the Striking Miners.

MILITIA PRESERVING ORDER.

Strikers Overawed by Their Presence and Coal Trains Allowed to Move—How Long This Will Last Is Very Uncertain as the Miners Are Growing Desperate at Several Places and Trouble Is Feared.

CLEVELAND, June 8.—Dispatches received from points along the line of the Baltimore and Ohio, Cleveland, Lorain and Wheeling, and Wheeling and Lake Erie railroads, in southern Ohio, indicate that a struggle between the striking miners on one side and United States deputy marshals and state militia on the other, will not occur when attempts are made to move the blockaded coal trains. A force of marshals is at Bridgeport, and between 1,000 and 2,000 state militiamen are scattered over Guernsey, Belmont and Muskingum counties.

The deputy marshals visited the various places on the lines of the Cleveland, Lorain and Wheeling roads where trains were blockaded, and read to the strikers the injunction issued by Judge Taft of the United States court in Cincinnati. This was preliminary to the attempt to move the trains by force if the men offer any resistance to the court's order. The future events are awaited with a great deal of apprehension.

AT CAMBRIDGE, O.

No Resistance Made to Militia and Trains Again Started.

CAMBRIDGE, June 8.—Adjutant General Howe, with 1,200 men, arrived here at 10 o'clock yesterday with a special train of 18 cars. They are from the Eighth, Fourteenth and Seventeenth regiments, with Batteries H and C, First artillery carrying two Gatling and two field pieces. The regiments are in command of Colonels Coit, Hamilton and Brush. They proceeded at once to Scott's mines, or Mineral Siding, four miles east of Cambridge, where no resistance was shown by the miners, who had taken to the woods earlier in the morning to avoid summons in injunction proceedings placed in the hands of the sheriff by the Baltimore and Ohio company.

The trains that had been held up there for two days were found to be in bad condition, partly unloaded, coupling pins and chains all thrown into the creek, packing taken from the wheels and in some cases the ends of the cars sledged in. By 4 o'clock all was cleared up and moved out.

About half the troops, with two field pieces, were sent on to Franklin and the remainder are in camp at Scott's mines, with guards and pickets out.

No violence has occurred since the stoning of a train Wednesday, and the wild stories about dynamiting the tunnel and tampering with bridges were unfounded.

A report came here yesterday evening that Company M of the Fourteenth regiment of New Philadelphia had been detained at Canal Dover, and that strikers are tearing up the track at Sugar Creek.

Two more companies, one of the Seventh and the other of the Fourteenth, have just arrived and will be dispatched at once to Dover to relieve Company M, with sealed orders from the commander-in-chief.

There are no fears of serious complications here. The guards are comfortably quartered in their cars.

Expecting Trouble.

BELLAIRE, O., June 8.—The situation here indicates that there will be trouble when the attempt is made by the military to push coal trains through the strikers' lines at McCalinsville. The men are anxious for the war to begin, and the soldiers are doubtless ready to obey orders, even though most of them sympathize with the motive of the miners.

At Wheeling Creek, near Bridgeport, the miners have 100 pounds of dynamite and small arms in profusion. They have warned all people away from their camp, and threaten to throw venture-some reporters into the river.

AFFAIRS IN INDIANA.

Militia Still on Duty and Riot Leaders Are Being Arrested.

INDIANAPOLIS, June 8.—Governor Matthews received last night a telegram from Judge Briggs at Sullivan, saying that he had convened the grand jury and that as fast as warrants could be written they would be served, if it took every law-abiding citizen in the county to do it.

General McKee, in command at Shelburn, sends the governor word that as fast as plans are arranged for the capture of ringleaders, some of the officials notify those wanted and the purpose is thwarted.

No Further Violence Occurred.

SULLIVAN, Ind., June 8.—No violence has occurred either at Shelburn or Farmersburg, although a coal train of 30 cars passed up yesterday evening. The section of the road between the two points was patrolled by the militia to prevent a repetition of the surprise of Tuesday. There will be an earnest campaign made by the civil authorities against the ringleaders of the strikers. If they can be found they will be promptly arrested.

Miners May Resume.

WASHINGTON, Ind., June 8.—The

mine workers' strike is virtually ended as far as this section is concerned, and the miners will probably resume work Monday, as they have no grievance and only quit work in order to help the movement along. A meeting is to be called Saturday, and prominent miners say that a resolution to go to work will be the result.

The three miners who were arrested as accessories to the riot at Cannenburg Sunday, were tried, and Judge Heffron acquitted one and withheld sentence on the other two.

Dumped the Coal.

BRAZIL, Ind., June 8.—A crowd of 100 miners tore the rails out of the six coal cars, which were captured on the vansville and Terre Haute, and dumped the coal out on the track. While United States Marshal Hawkins was on the scene the miners kept quiet, the deprivations being committed immediately after he left.

More Miners Quit Work.

CANNELTON, Ind., June 8.—One hundred miners in the American Cannel Coal company's mines quit work yesterday after being waited on by the strikers. The cottomill will be compelled to shut down Monday or Tuesday, which will throw 400 more people out of work.

IN ILLINOIS.

No Serious Rioting, but Soldiers Awaiting to Be Called Out.

SPRINGFIELD, Ills., June 8.—In view of the serious trouble with the striking miners in various parts of the state, Adjutant General Orendorff has issued orders to brigade commanders to notify their troops to hold themselves in readiness for a call at any time.

No Further Bloodshed.

PEKIN Ills., June 8.—Company G of Lincoln Ills., arrived at Pekin in the afternoon, and was met at the depot by Sheriff Frederick and a number of deputy sheriffs.

At the coroner's inquest yesterday J. B. Irwin, editor of The Evening Post, and H. C. Kuhl, an insurance agent, both of them deputy sheriffs, and Chris Frederick, the sheriff, were heard. They were all eyewitnesses to the bloody affair, and declared that John L. Gehre, formerly a member of the state legislature was the leader of the mob.

QUIET AT MCKEESPORT.

Rumors of a Compromise but the Company Officials Deny It.

PITTSBURG, June 8.—The situation at McKeesport remains quiet, the only departure from this rule being the rather rough handling of a well dressed stranger, who was brought to the railroad station last night, and hustled on to the Baltimore and Ohio train, and told not to leave it until Pittsburg was reached. The strikers cheered and the police made no move to interfere in behalf of the man, whose alleged crime was that he had made himself obnoxious all day by too closely watching the movements of the strikers.

It was reported last night that a compromise was being arranged whereby the men would return to work within a day or two, but the company officials declare that they will not operate their works at present.

The gas men who were allowed to go into the mill yesterday, were again barred out last night by the strikers, and if not allowed to return before Monday, the damage will be great to furnaces.

The tube workers at Duquesne, who were forced out Wednesday by McKeesport strikers, held a meeting last night and decided not to return to work unless increased wages were granted. This, Superintendent Dunshee says, will not be done, and he will close down the mill indefinitely.

Operators to Meet in Pittsburgh.

PITTSBURG, June 8.—The coal operators' conference committee of this district, in session here, by a tie vote defeated a resolution to attend the Columbus joint conference, and by a vote of 6 to 4, decided to call a general meeting of operators here to consider the matter.

Will Undertake to Move Trains.

WHEELING, June 8.—There was not a ripple of excitement at the Wheeling Creek mines, west of Bridgeport, yesterday and no attempt to move coal was made. The starting of trains on the Cleveland, Lorain and Wheeling road was delayed owing to the failure of United States Marshal Bohl and deputies to reach the scene. They were delayed by the tie-up of the Baltimore and Ohio west of Bellaire, but are now here and will undertake to move coal trains.

A telegram from John McBride, asking the miners to vacate their camps and abandon all attempts to hamper the road, was read to the miners but had no perceptible effect.

Kenova Bridge Still Stands.

KENOVA, W. Va., June 8.—There is a very pleasing absence of threatening conditions here, no reports of alarming character have been had from any point, and there is no trouble expected, though the same heavy guard is out.

But little importance is attached to the attack of yesterday morning, and as heavy guards are on that part of the line, no attack is likely to come. Heavy coal trains of coal are going out, there being necessary to prevent a blockade in the yards here.

CRISIS PASSED.

There Will Be No More Trouble at Cripple Creek, Colorado.

DENVER, June 8.—Unless some excited posse of deputies or band of reckless miners persist in making trouble, the crisis at Cripple Creek is over. The most authentic facts out of a great mass of excited telephone dispatches indicate that the miners are willing to lay down their arms, come into camp of the national guard and become good citizens once more.

The militia yesterday made a forced

March from Midland, reaching the scene of trouble at 3 o'clock in the afternoon, none too soon to prevent a clash between the miners and the deputies. When General Brooks reached the camp he requested the deputies to withdraw their picket line and he would substitute his men. To this the deputies demurred, but had to obey. Yesterday evening a squad of deputies marched through the main streets in military order. Mayor Lindsley took occasion to tell them they must not enter the corporate limits of the city any more.

Sheriff Bowers was waited on by a large delegation of deputies, who urged him to allow them to accompany him to Bull Hill in the morning. This may precipitate a row. The town is still intensely excited. The presence of the militia does not bring any relief. The deputies want none of their aid, and the strikers stand ready for a scrimmage at the drop of a hat.

Ready for the Match.

EL RENO, O. T., June 8.—The force of deputy marshals from El Reno, who went to Pond Creek to protect the railroad property from the townspeople of that city, have returned. They report affairs fully as bad as stated and that a constant patrol of the railroad was all that kept the railroad bridge from being burned, as the bridge was already oiled and prepared for the match.

Threaten to Blow Up the Mines.

BIRMINGHAM, Ala., June 8.—Trouble is looked for, 500 miners are massed and threaten to blow up the mines at Blue Creek. One hundred and fifty troops have left Camp Forney on a special train.

INDIAN APPROPRIATION BILL.

It Is the Subject Debated in the House.

Tariff in the Senate.

WASHINGTON, June 8.—The house had the Indian appropriation bill under discussion yesterday. The main feature of the debate was an attack on the Catholic church made by Mr. Linton of Michigan, in which he argued against the contract Indian schools, saying that under this system the largest share of the appropriation for educating the Indians went to the Catholic Indian schools.

The other point of interest was the debate on the location of the Indian supply warehouse, the New York delegation protesting against the abandonment of the warehouse at New York for one at Chicago. This gave rise to a spirited debate between the champions of the two cities.

A resolution was adopted before adjournment calling on the secretary of the treasury for information as to the enforcement of the immigration and contract labor law, and another authorizing the committee on immigration to visit Ellis Island for the purpose of studying the operation of the laws.

At 4:33 o'clock the house adjourned.

In the Senate.

WASHINGTON, June 8.—The action of the attorney general in claiming \$150,000 from the estate of the late Leeland Stanford, occupied the attention of the senate until the tariff bill was taken up Thursday.

At 6 o'clock the senate adjourned.

FURNITURE MANUFACTURERS.

Doings of the National Associations Meeting at Indianapolis.

INDIANAPOLIS, June 8.—The National Furniture Manufacturer's association continued in session here. The convention voted in favor of the speedy passage of the Torrey bankruptcy act, and that congress be memorialized for its enactment into a law. Fraudulent assignments were denounced, and pledges made to discourage all such dishonest practices.

J. G. R. Pitkin, ex-minister to Venezuela, and now president of the Pan-American association, delivered an address on the relations of the United States with the South American republics. He gave a detailed account of the methods adopted by the merchants in those countries in transacting business, and explained why they made so many failures. He also explained the English banking system and advised all United States manufacturers to ship their goods to South America.

Horse Impaled.

COLUMBUS, O., June 8.—A horrible scene occurred at the east side of the capitol grounds Wednesday afternoon. A young horse belonging to Rev. Dr. Van Horn ran away, and, dashing up to the iron fence surrounding the statehouse, attempted to jump over. It fell short in the leap and landed on the top of the sharp pointed iron pickets. The poor animal hung there, struggling until its internal organs were torn out and scattered over the ground. It was necessary for the police officers to kill it before its body could be recovered from the terrible position.

Union of the Fleming Family.

MUNCIE, Ind., June 8.—Word has just been received that the annual reunion of the Fleming family would be held in Muncie Aug. 23 and 24. Ex-Governor Fleming of West Virginia is president of the organization, which has nearly 10,000 members.

Republican Congressional Convention.

NEW ALBANY, Ind., June 8.—The Republicans of the Third Indiana district met in convention here yesterday and nominated Robert J. Trancenell of Corydon their candidate for congress. The McKinley bill was endorsed.

A Sleep Walking Feat.

IN THE SWAMPY districts of France the men are accustomed to walk over the marshy ground on stilts. A sleep walker on one occasion buckled on his stilts and crossed a swollen torrent in the dark. On awaking he had not the courage to perform the same feat in daylight.—*Boston Globe.*

ATTEMPT TO WRECK A TRAIN.

Fifty Passengers on Board, but No One Was Seriously Hurt.

ALBANY, June 8.—An attempt was made to wreck the passenger train, due here at 7:40 p. m., at Rockefeller's Crossing, three miles west of Albany, on the Delaware and Hudson last night. A stray rail had been fastened across the track by means of heavy pieces of angle iron.

The train crashed into the obstruction and tore off the fastenings. The rail was carried along under the cowcatcher for several hundred feet before the train could be stopped. The train did not leave the tracks. There were about 50 passengers aboard, but barring a shake-up, no one was injured. It is believed that the train arrived at the scene before the villains had completed their job.

Two men, George Herbst and William Klein, cigarmaker and moulder respectively, claiming Albany as their home, were captured by Conductor John Gilespie and Engineer Fred Parsons on the tracks ahead of the wrecking spot. They had a lantern and some fishing tackle, and claimed they had been fishing. A revolver was found on one of the men. They protest their innocence. Late Wednesday evening the Delaware and Hudson train, leaving Albany at 6:15, was stoned at the same spot.

Many Rebels Killed.

RIO JANEIRO, June 8.—The government has received information that part of the insurgent forces under General Saravia have been routed at Camp Novos, in Santa Catherine, the federal troops capturing six pieces of artillery. The insurgent losses were 150 killed and wounded, and the government losses were 80 killed and wounded, including two captains in the former category. A large body of reinforcements have embarked for the south.

Invests in Bogus Picnic Tickets.

CHICAGO, June 8.—Two swindlers sold in this city during the past few days over \$2,000 worth of bogus tickets to a picnic to be given under the auspices of the American Railway union for the benefit of the Pullman strikers. Among their victims was Mayor Hopkins, who bought \$50 worth of the bogus pastebands. The swindlers are believed to be T. W. Forsting and E. H. Wheeler, ex-conductors, and the police are looking for them.

Sea Water as a Disinfectant.

WASHINGTON, June 8.—The workings of a new system of electrical sanitation now being tested at Havre, France, is described in detail by United States consul Chancellor. Sea water is electrically decomposed and the resulting liquid, which is a most powerful disinfectant, is distributed through the city for use in flushing sewers, house drains, etc. The process is said to be remarkably effective but its economy remains to be demonstrated.

Come Together With Carvingknives.

MINT SPRINGS, Ala., June 8.—Gilmore Kennedy and Collins Logan, two well known young farmers, came together with carvingknives near here, as the result of the too much indulgence in whisky at a stag picnic. Gilmore was literally hacked to pieces and died in the conflict. Logan himself, received gashes in the groin that may terminate fatally. Logan surrendered. He claims that the killing was accidental.

Rev. Reed Resigns.

DENVER, June 8.—Rev. Myron W. Reed, one of the most popular ministers of this city, resigned from the pastorate of the First Congregational church. The step is taken because of exception taken to his remarks, made in the pulpit last Sunday evening, in which he criticised the Cripple Creek mine owners. Reed is a prominent member of the G. A. R. and four years ago ran for congress on the Democratic ticket.

Parade of Coke Workers.

SCOTTSDALE, Pa., June 8.—Five thousand striking coke workers paraded here yesterday. Each man carried a bundle of freshly cut roses, which were deposited on and around the graves of their fallen comrades. After the parade a monster massmeeting was had. No sign of disturbance was manifest and the men dispersed quietly, firm in their determination to continue the strike.

A New Corporation.

SPRINGFIELD, Ills., June 8.—Articles of consolidation were Thursday filed between the Chicago and Eastern Illinois Railroad company and the Chicago and Indiana Coal Railway company. The name of the consolidated company is to be The Chicago and Eastern Illinois Railroad company. The principal office is to be in Chicago, and the capital stock is \$25,000,000.

Captured a Train.

LOS ANGELES, Cal., June 8.—Barker's army of industrialists, numbering about 400, captured a passenger train at Mojave, yesterday and started south. When they arrived at Barstow

KENTUCKY is called a backward State in educational matters, yet during this single year she has put into her school houses more than a quarter of a million dollars in furniture and apparatus. What other State of equal population has done as much in the same time?—Public Ledger.

Kentucky's school per capita has also steadily increased, and now but a half dozen States pay better teachers' salaries. All this has been done under Democratic rule; yet, if memory be not at fault, the Public Ledger has persistently urged that its management of public school affairs was such as to merit condemnation upon the Democratic party and to demand its expulsion from power.—Fleming News.

Your memory is not at fault, Brother Hinton. It was only a few years ago when the editor of the Ledger was howling about the public schools of Kentucky and deplored their condition. Of course he was only talking in a vain effort to make a little political capital. The people down this way haven't forgotten his rantings on this subject.

Circuit Court.

Henry Allen was found guilty of cutting another in sudden heat and passion, and was fined \$50 and costs. The offense was committed at Helena a week or two ago. During a dispute over a horse trade, Allen carved up his step-father, Charley Graham, inflicting twenty-three wounds. It was feared at the time that Graham's injuries would prove fatal, but he is recovering, and was able to appear as a witness yesterday.

Lee Jackson, charged with feloniously breaking and entering a dwelling house, was tried and acquitted.

James N. Kehoe executed bond as receiver of the firm of Greenstein & Co., with T. A. Keith, James W. Fitzgerald and Clarence Wood as sureties.

In the suit of G. W. Geisel against The Independent Fire Company, Washington No. 1, judgment was entered in favor of plaintiff, releasing him from further duties as trustee.

The grand jury reported indictments against the following Thursday:

Frank Brown, Chas. Smith and Chas. Desmond, robbery.

Lydia Duley, assisting a prisoner to escape.

Milo Allansworth, grand larceny.

F. H. Henderson, obtaining money under false pretenses.

The grand jury dismissed the charges against Alice Laytham.

Ollie Tolle was excused from further service as a grand juror.

The Revival at Shannon.

The revival at Shannon Church closed on the 29th ultimo and "the little messenger," Miss Mollie Marimon, is now with her father, a Methodist minister, at Petersburg, Ky., in a meeting at that place. She drew larger audiences than any revivalist who ever visited Shannon.

Number of accessions forty-five. On leaving, her delighted hearers made up a purse of \$62.35 and presented it to her through Miss Olivette Bland, one of her converts.

IT'S SO, OF COURSE,

'If You See It in the Ledger'—Doverites Don't Like the P. L's Slur on Their Can-
nery.

The BULLETIN says one Maysville grocer has contracted with the Dover Canning Company for 100,000 cans of tomatoes. From the looks of the company's plant we don't believe they can fill the order within the next century. The building is about 20,000 square feet and a frame at that. —Maysville Public Ledger.

To which the News replies: "This unkind slur at our cannery is as untrue as it is wanton. The building is 30 by 86 feet besides the sheds and boiler room, and is two stories high. It is one of the most substantial buildings for the purpose ever erected.

"Instead of taking a century to put up the 100,000 cans that M. C. Russell & Son contracted for, it will just take nine days, as the capacity of the plant is 11,000 cans per day. The ultimate success of the plant depends of course on the supply of tomatoes.

The matter of extending Chester street was stricken from the minutes.

The public gas lamps near Union street and Forest avenue was reported discontinued.

Messrs. Dressel and Dietrich were given further time to recover that Sixth ward stove.

The McDowell heirs were refunded \$11.82 taxes. The taxes were collected from them twice for year 1890.

Permits were granted as follows:

John Gill; to erect a stable on rear of his lot east of the Limestone bridge.

R. M. Wallingford; to move a stable from Dieterich street to Carmel street.

R. M. Wallingford; to erect an addition to his residence on Carmel street.

Jno. F. P. Tolle; to erect a frame house on north side of Second street, First ward.

Benjamin Dunkle; to build a frame residence on his lot on the north end of Wood street, between Second street and river.

L. M. Mills; to erect a frame stable on his lot on Elizabeth street, Sixth ward.

Treasurer James W. Fitzgerald executed bond as City Collector, with Edward P. Browning, John T. Parker, H. G. Wells, C. H. White and H. H. Collins as sureties.

The report of the Board of Supervisors was read and received. City Clerk Brose stated that his footings of the assessment made the total about \$12,000 less than that of the City Assessor. It was suggested that if there was any error, it was simply a clerical one, which could be corrected.

The salary of the members of the Board of Supervisors was allowed and ordered paid.

The books of the Assessor as equalized by the Board of Supervisors were received and made the assessment for this year.

The salary of the City Assessor (\$250) was allowed and ordered paid.

An ordinance fixing the city levy for this year was adopted under suspension of the rules, as follows:

For taking up outstanding indebtedness (on all property except in Sixth ward).....	35c. on \$100
For general purposes (on all property in the city).....	.75c. on \$100
For school purposes (on all property in the city).....	.15c. on \$100

In addition a levy of 10 cents on the \$100 on property in Sixth ward was levied to aid in taking up outstanding indebtedness incurred since said ward became a part of the city.

The poll tax was fixed at \$1.50.

The levy is the same as that of 1893.

The rules were suspended and an ordinance passed fixing a penalty for non-payment of taxes. It provides that a penalty of 10 per cent. and interest shall be attached to all taxes not paid on or before November 1st, each year.

The rules were suspended and an ordinance was adopted making it a penalty of from \$10 to \$50 for maliciously breaking street lamps.

Bonds No. 13, 14, 15 and 16 each for

\$500 were ordered to be issued and sold to provide funds for current expenses.

On motion of Mr. Newell the Ways and Means Committee was directed to prepare a plan for refunding the outstanding indebtedness of the city at the time the new charter was adopted, and report at next meeting. This indebtedness amounts to about \$28,000 and was incurred for the water works. Mr. Newell stated that the committee had assurances that it could be refunded at a rate of 5 per cent. and he thought that was the best plan to dispose of it.

A communication from the Board of Education was read, stating that it was estimated that the Board's expenditures for the school year ending June, 1895, would amount to \$15,000, and that the revenue from the State, county and city tax, and from fines, &c., for same period would amount to \$14,977. In order to provide accommodations for the colored school, the Board has decided to build an additional room at a probable cost of \$400. The Board suggested that an additional levy of 1½ cents on the \$100 be made for this purpose, but after discussion Council decided that the levy of 15 cents on the \$100, with the funds now on hand, (about \$1,500), would be sufficient.

Copies of the charter for the fourth class, ordered purchased at last meeting, had been received and were distributed among the officials.

Mayor Cox read a communication from a Mr. Baird, of Shelbyville, and presented a copy of an index to the fourth class city charter prepared by Baird. He was authorized to correspond with Mr. Baird and purchase some copies of the index.

BLOOD POISONING

Causes the Death of Mr. John Faber, a Brother-in-Law of Mrs. John Dinger, of This City.

Cincinnati Enquirer: "One of the most remarkable cases in medical and surgical jurisprudence ended Wednesday, when, at noon time, John Faber, Esq., a prominent citizen of Newport, breathed his last. About a year ago Mr. Faber while trimming a corn inadvertently permitted the blade to cut into the quick.

"Manifestations of blood poisoning were followed by one of his toes mortifying, the member thus afflicted not being the original seat of trouble. Amputation was resorted to and it was supposed that the unfortunate man had conquered the evil of having his limb literally decaying, but the deadly poison attacked another toe, which was severed, and to his horror still another shared the same fate.

"A consultation of learned physicians was had when the general distribution of the poison was thus shown by the maimed foot turning black, and once more the surgeon's knife was called into requisition and the entire foot was cut off at the ankle joint.

"The afflicted man was greatly reduced in vitality after these successive amputations, and he bade fair to recover, but he seemed doomed to be obliged to suffer a fourth cutting, for the ominous hue began to spread over the entire surface below the knee joint.

"The decision was to amputate the limb at that point, but the prospect of another season of agony was too much for Mr. Faber to endure, and debilitated, weak, exhausted, and appearing but a wreck of the stalwart powerful six-foot man his friends knew so well, kindly death mercifully closed his eyelids.

"Mr. Faber was well-known among early river men as conducting a sample room on Main street, near Front street, in that city. Of late years he engaged in the business of manufacturing paper boxes, the firm being Duncan & Faber.

Deceased was a brother-in-law of Mr. John Dinger, of this city.

—DEALERS IN—

STOVES,

REPUBLIC OF HAWAII.

A New Constitution Has Just
Been Formed.

SOME OF ITS PROVISIONS.

It is almost an exact model of that of the United States, though not so liberal in some respects—The Japanese question still undecided—Decoration Day observed—Other Hawaiian events.

SAN FRANCISCO, June 8.—The steamer Mariposa from Hawaii has arrived in this port, bringing the following letter to the Associated Press, dated Honolulu, May 31:

The long-looked-for constitutional convention met yesterday. The assemblage gathered in the hall formerly used as a meeting place for the legislatures of the royalty. None of the old time pomp and ceremony marked the occasion.

The room was full of people and all foreign diplomatic and consular corps were present, with the exception of the representatives of England and Portugal. Minister Woodhouse, the British minister resident, was asked to be present, but sent a formal reply stating that he could not be there, but gave no reason for his action.

The birthday of Queen Victoria only a few days ago at the special request of Mr. Woodhouse was fittingly acknowledged by the Hawaiian government, and his action is regarded as extraordinary. The Portuguese consul is at present in San Francisco. The ceremonies opening the convention were very brief.

President Dole, in his address before convention, outlined fully the work it has to do, and stated clearly the reasons which had compelled a change of plans by the president and advisory council from annexation to the United States to the creation of an independent republic. He gave utterance also to this significant expression.

"Although the establishment of a fundamental law which shall, as soon as possible, provide for the safe and permanent administration of affairs upon the principles of a republican form of government, will be a paramount object to your deliberations, the original purpose of the provisional government to negotiate a treaty of political union with the great and friendly nation be as fully recognized by you as a vital policy of the new republic, as it has been for the provisional government."

Copies of the proposed new constitution are now obtainable, and several have been forwarded to San Francisco. All copies of the document was forwarded in this correspondence. The constitution is an exact model of that of the United States, and many of its provisions are taken bodily from some of the state constitutions. Its salient features are the great powers invested in the executive, the limitations on the elective franchise and the various provisions designed to place permanent control of the future republic in the hands of its present guardians and their successors, who shall carry out their policy.

The steamer Iwala returned Tuesday from the Necker island, Minister of the Interior King, at the head of the expedition, raised the Hawaiian flag over Little Lava Rock, and Hawaii now owns more property. The new acquisition is a perfectly barren island of no use whatever, except as a possible resting place for the proposed cable.

The Japanese question is again a source of annoyance to the government. It is generally understood that the Japanese intend pushing the question of franchise. R. W. Irwin, Hawaiian minister to Japan, arrived recently with dispatches from the Japanese government and created quite a sensation, but Irwin has positively stated that Japan makes no absolute demands.

Decoration day was celebrated yesterday. All the government troops turned out, and accompanied by Admiral Walker and his staff, with a large detachment of sailors and marines from the Philadelphia, marched to the cemetery.

WAR IN OKLAHOMA.

Jealousy of Towns Leads to a Serious Situation.

WELLINGTON, Kan., June 8.—Trouble has been brewing between the citizens of Round Pond, O. T., and the Rock Island Railroad company ever since the town of Pond Creek sprang up and the company placed its depot there and refused to stop at the former town.

Wednesday morning a farm wagon was placed on the track at Round Pond to stop the trains. A stock train cut right through it, but was ditched a little further on, where 150 yards of track had been torn up. Twelve cars of cattle were killed, but the trainmen escaped without fatal injury.

Citizens of Round Pond are massing with Winchesters to oppose the armed force dispatched by the railroad to repair the track. The road has been torn up all the way through the city. Governor Rentfrow has called out the United States troops stationed at Fort Reno to aid in quelling the riot.

Thirty railroad men were arrested and jailed at Round Pond and are guarded by armed citizens. The railroad company is hurrying trainloads of armed men to the scene.

Charged With Murder.

URBANA, O., June 8.—Two colored men are in jail here on a serious charge. Marshal Boyer and William Black are charged with setting fire to their saloon building to secure the insurance money. This led to a charge of poisoning William Simms last September. Coronel Moore exhumed the body yesterday afternoon and found the stomach full of small particles of powdered glass.

Runaway Girl Recaptured.

MIDDLETON, O., June 8.—Carrie Reed, a pretty 16-year-old girl, ran away from her pleasant home here with a married woman named Annie Doty. She was apprehended in Hamilton last night by Chief Anderson and restored to her parents. The girl is inclined to be wild and has caused her parents much trouble and sorrow. The Doty woman will be prosecuted.

THE MAID SAYS NAY.

Her Mistress' Clothing No Longer Good Enough For Her—New Light Wraps.

It is a curious but well known fact that what is good enough for the mistress to wear is often not good enough for the maid. The pretty bonnet worn but yesterday by "the lady of the house" on her marketing excursion, when offered today to her cook, is looked upon askance, possibly confused with more or less indirect criticism. The grownup daughter of the establish-

GREEN VELVET CAPE.

ment remarks that she is going to give one of her black dress skirts to the servant, whereupon the latter inquires, "Is it a nice one, miss?" although she knows that it will come to her just as the young lady has herself worn it. It is beginning to be a serious question as to what we shall do with our laid aside garments, since, however well made and well conditioned they may be, whenever they cease to be desirable to the comfortably situated woman they have no attractiveness for her maid, her cook or even her laundress. It seems wicked to burn them up when so many human beings are going in rags.

Speaking of saving garments, why does not somebody invent a preservative for woolen clothing and furs that shall prevent moth and rust from corrupting and shall yet not infect everything it approaches with an ineradicable odor of ill smelling chemicals? No extract or sachet powder yet manufactured can overcome the evil savor, and even the sunshine and open air do not wholly dispel it.

But by this time winter things are already packed away with tar balls, camphor tablets and similar abominations, and light wraps are in the ascendant. Paris is still sending forth new varieties of capes and has added to the black and mode colors shown earlier in the season an assortment of brighter colors and still more elaborate make. A sketch is given of one made of malachite green velvet, having a round yoke very long over the shoulders. Around this is placed a full flounce of velvet. The cape is trimmed with vandykes and bands of cream guipure and has on either side of the front a rosette of black satin ribbon with long ends.

HOW TO CARE FOR THE HAIR.

A Few Simple Measures For Beautifying It, and a New Coiffure.

How to care for the hair is a never settled question. The market is full of nostrums for beautifying, restoring and preserving it, while there is an unceasing supply of contradictory recipes for its treatment. One writer mentions sage tea as a dressing, but does not add that it should be used only by brunettes, as it is inclined to darken the hair. Other authorities state that borax should always be dissolved in the water in which the hair is washed. But borax, although it keeps the hair soft and clean, makes it fall out as fast as it grows in.

Somebody else advises the use of vaseline and glycerin. These articles may be beneficial, but they make the hair damp and oily and effectually prevent anything in the

NEW COIFFURE.

way of curls or waves, besides collecting all the dust and cinders that are afloat in the air. Brushing has time out of mind been considered the best sort of treatment, but not long ago an innovator came out with the assertion that it is most injurious, destroying the new hairs before they have a chance to grow. This may be taken with a grain of wholesome doubt.

It is much easier to say what should not than what should be done. Oil or grease of any kind makes the hair straight, stringy and unpleasant to the touch and is an enemy to neatness. Soda dulls and dries it. Sulphur stimulates its growth, but is too odoriferous to be pleasant. Simple measures in this matter, as in most others, are best. The hair may be washed as frequently as necessary, for if it is quickly dried a bath does no harm and greatly improves its appearance. A little common salt, fine toilet soap, ammonia or alcohol may be added to the water and the hair afterward be dried in the sun or by artificial heat. It should not be touched with brush or comb until it is thoroughly dry. This treatment will keep it clean and soft, and no hair is beautiful without these attributes, no matter what its color or thickness.

A sketch is given of an evening coiffure in which the front hair is curled and the waved back hair arranged in a twist ending in five puffs on the crown of the head. The left side is ornamented with four erect wigs or ears.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.
